WORKSHOP VENUE

The workshop will be conducted at the **Birla Institute of Technology and Science, Pilani -Goa Campus, Goa INDIA.**

Widely regarded as the “Pearl of Orient” Goa is a well-known and popular hotspot on the map of India and the world. The name immediately brings to mind the lush green meadows, hills and valleys the glittering sand, the sea and its attractive beaches. During October the temperature of Goa is 27-32⁰C with about 7 hours sunlight.

Goa international Airport is well connected through International and domestic flights from all around the world. Several flights operate to and from Goa to major cities in India and abroad. The workshop venue is about 5 kms from the **Goa International Airport (GOI) Dabolim.**

Further information regarding abstract submission, registration and accommodation will be available through second announcement and workshop website by middle of December 2006.
